

Friday, October 27th, 2017, 17:45-18:45

Andel's Hotel Berlin– Berlin, Germany

Approaches to potentially overcome CAR-T cell toxicity: anticytokine antibodies and suicides genes

Chair

- Christian Chabannon - Head of Cell Therapy Facility at Institut Paoli-Calmettes, Marseille (France)

Presentations

- Attilio Bondanza – Head of Innovative Immunotherapies Unit, San Raffaele Scientific Institute (Italy)

Please note that while all registred delegates can partecipate, there is a pre-registration process set up specifically for the workshop on a first-come, first serve basis, as workshop is limited currently to 50 attendees. Info and registration at: costem@cme-congress.com
