

PRESS RELEASE

MolMed: AIFA authorizes new areas of Bresso facility for GMP manufacturing of viral vectors.

Milan (Italy), February 12th 2020 - MolMed S.p.A. (MLMD.MI), a biotechnology company focused on research, development, manufacturing and clinical validation of cell and gene therapies for the treatment of cancer and rare diseases, announces that on February 11th AIFA (the Italian Medicines Agency) has authorized new areas of Bresso site for the GMP manufacturing of viral vectors to be used in clinical trials based on advanced therapies.

The availability of these new rooms further increases the manufacturing capacity that MolMed can offer to its current and future clients, in the perspective of the continuous growth of its third party business of development and GMP manufacturing services in the field of cell & gene therapies.

About MolMed

MolMed S.p.A. is a clinical stage biotech company focused on research, development, manufacturing and clinical validation of innovative therapies. MolMed is the first company in Europe to have obtained the GMP manufacturing authorization for cell & gene therapies ex vivo for its proprietary products as well as for third parties and/or in partnership (Strimvelis, an Orchard gene therapy for the ADA-SCID). With reference to GMP development and manufacturing activities for third parties, MolMed signed numerous partnership agreements with leading European and US companies. MolMed's is also developing a new therapeutic platform based on Chimeric Antigen Receptor (CAR), both autologous and allogeneic; the most advanced product, CAR-T CD44v6, which in March 2019 received the authorization to start human clinical trials in onco-hematologic indications (AML and MM), following an extensive pre-clinical phase. The product, whose innovative spacer incorporated in the CAR protein received in May 2019 the confirmation of grant, is potentially effective also in several epithelial solid tumors. MolMed is also developing a pipeline based on NK (Natural Killer) cells, following a research agreement signed in 2018 with Glycostem. MolMed, founded in 1996 as an academic spin-off of the San Raffaele Scientific Institute, is listed on the main market (MTA) of the Milan stock exchange managed by Borsa Italiana since March 2008. MolMed is headquartered and based in Milan, at the San Raffaele Biotechnology Department (DIBIT) and has an operating unit at OpenZone in Bresso.
